

FitClub Code Validation

The following validators were used to QC HTML, CSS, Javascript and Python by individual app. The HTML was firstly displayed as a webpage to remove all python/django templating.

Any errors encountered that could not be overcome are commented on, with explanations as to why.

Language Type	Validators	URL
HTML		https://validator.w3.org/
CSS		https://jigsaw.w3.org/css-validator/
JavaScript		https://jshint.com/
Python		http://pep8online.com/

Home App

Language Type	Errors/Warnings	Comment
HTML	1	index.html <i>Error: Bad value 100% for attribute width on element video: Expected a digit but saw % instead.</i> I tried removing the % and the video reduces to an unwatchable size. So this error should be ignored.
